⬅➡	Distance between the prison and the city center

The ancient wall and towers, built during the 15ᵗʰ century, characterize the fortress aspect of the prison.. Its typology can be represented by the courtyard building. Due to its position, historically strategic for the control of territory, the complex still serves as a reference element in the landscape.

Access and control system

	Light metal fences
	Heavy metal fences
	Walls
▪ ▪	Guard Towers
➡	Entrances
