The image shows a match-3 puzzle game interface. At the top, there is a purple banner with the text "MOVES 0", a yellow star icon with a green checkmark, and a score box displaying "Score 6100". Below this is a progress bar with three yellow stars. The main game area features a grid of fruit tiles on a blue background, set against a colorful landscape with green hills, trees, and a blue sky with clouds. The grid consists of 7 columns and 5 rows of tiles. Each tile contains a fruit icon and the number "100". The fruits are orange, red apple, purple grape, and green watermelon. The tiles are arranged as follows:

Orange	Red Apple	Orange	Red Apple	Orange		
Orange	Purple Grape	Orange	Red Apple	Red Apple	Green Watermelon	Green Watermelon
Purple Grape	Orange	Purple Grape	Red Apple	Red Apple	Purple Grape	Purple Grape
Orange	Green Watermelon	Orange	Orange	Purple Grape	Green Watermelon	Red Apple
Orange	Orange	Purple Grape	Red Apple	Green Watermelon		

At the bottom left, there is a green circular button with a white pause symbol. The entire interface is framed by a yellow and orange checkered border.

i only bought this because i had a 90% off voucher.. Juice Fresh is your typical Bejeweled V Candy Crush V Farm Heroes game with a fruity theme. The levels start relatively easy and get more difficult as you progress. It's one of those games that's good to play when you need a break from your usual games or don't really have the energy to play any difficult games.

There are different kind of levels: levels you need to get a certain score, clear specific types or clear specific tiles. Sometimes there's also a time limit (instead of a x amount of moves limit).

I got this game with a 90% discount coupon. It's like paying 10 cents for unlimited lifes forever in one of the games I mentioned above! So if you like those kind of games, it's worth a quick grab with a good discount.. Just idling achievements. Juice Fresh consists of a series of 100 puzzles, and is similar to several other games on Steam. You can get a score for each puzzle of 1, 2, or 3 stars.

The puzzles start off very easy, although there are some further on down the track for which it can be quite hard to get a rating of 3 stars.

There were even some puzzles which left me scratching my head as to what exactly the puzzle was asking me to do, or how to do it.

I finished 92/100 in 5 hours (I'm sure that other people could do better; if so, good on them); however, there were 2 or 3 of the puzzles which I didn't get 3 stars (oh well), so kudos to those who get 3 stars for every one.

The Steam achievements for this product do not appear to be related to the game. The achievements just kept on popping up as I played the game - and I got all 632 of them in just under 30 minutes.

So, just ignore the achievements and concentrate on playing the puzzles.

Juice Fresh is a nice little puzzle game in which you can while away a few hours.

It's only 99 cents, so it's well worth it (I got it on special for 50 cents).

If you like doing puzzles, then you may as well give it a try.. Whan an absoloute scam, this game is unplayable, and i bought it for 0,1\u20ac COULD HAVE \u2665\u2665\u2665\u2665ING BOUGHT SOMETHING OFF MCDONALDS!!

I got this game for \$0.10 so I fell like I'm less obliged too hate this, and even saying I hate this just fells wrong.

I think bordom is a better word. I've bought games that unlock a ton of achievements for just starting the game, but I wasn't expecting this here. I suppose I should have researched a little better. I was looking forward to actually playing and earning achievements. I'm sad, but oh well, easy achievements I guess.

I wish there was a "meh" option instead of having to go full thumbs down.. I have to say, this by far is the best game I have played this year, dont mind the 6 minutes of gameplay, Because those were the best 6 minutes of my life, and only at the small cost of 10c. I recommend this to anyone who is in to high level pro gaming (MLG). This is not for casuals, I hope you find this helpful!. Finished the game. Several levels were purely luck not skill. And there were a few levels where I couldn't do anything before I quit out and restarted the game. It... was ok but the bugs made it rage inducing... So i'm going to say. No.. Juice Fresh is your typical Bejeweled V Candy Crush V Farm Heroes game with a fruity theme. The levels start relatively easy and get more difficult as you progress.
