### 01.00 CHAPTER 1: MAGIC ITEMS

IMACR: Seamantha - Eian Trost

This chapter contains a collection of magic items designed to fit right into a campaign where exploration, kingdom building, and contact with by are strong themes. You'll find items that will suit everyone from adventurers delving into the wild unknown to established rulers commanding armies in a cutthroat war. Whether you need clever items for lively battles to use in their unsuccessful quest to defeat the FGL, a battle standard to summon an army of fallen warriors, the personal treasury of an insane Fey queen, or even a way to make a city fly, this book contains the items you need to make your campaign memorable. Some items may be in the hands of the PC's foes, such as crafty kobolds, scheming hags, or even an ancient lich. Others may have been left behind by individuals who fell victim long ago to unknown dangers.

#### War God's Greatsword

Type: Weapon  
 Subtype: Greatsword  
 Rarity: Very Rare (Requires Attunement)  
 Cost: 1,001 - 50,000 gp  
 Weight: 5  
 Damage: 2d6 slashing  
 Properties: Magic, heavy, two handed

IMACR: War God's Greatsword

A war god's greatsword is an adamantine greatsword that gains additional power as its wielder defeats worthy foes. Whenever you kill a foe with a CR at least 1 higher than your character level, the sword gains one charge. The sword can hold up to 5 charges. You can unleash any number of charges as an action to frighten all enemies within a 30-foot radius. Those that fail a DC 15 Wisdom saving throw are frightened for 1d4 rounds; those that succeed are frightened for only 1 round instead. For each additional charge the wielder expends, the save DC is increased by 1 and the duration of the frightened effect on a failed save is increased by 1.

#### Quickstep Boots

Type: Wondrous Item  
 Rarity: Rare (Requires Attunement)  
 Cost: 501 - 1,000 gp  
 Weight: 0.5

IMACR: Quickstep boots - Dio Mahesa

These shimmering gray boots channel the nature of quicklings to grant their wearer additional speed. You gain an increase of 10 feet to their walking speed. You can also dash as a bonus action once, gaining the effects of blur until the end of your next turn. You can't use this item power again until the next dawn.

Blur

#### Fractured Phylactery

Type: Wondrous Item  
 Rarity: Artifact (Requires Attunement)  
 Cost: 10,001 - 100,000 gp  
 Weight: 1

IMACR: Necromantic box CMYK - Beatrice

When a lich descends into torpor, progressing from a full lich to an atrophied lich to a demilich, its phylactery slowly falls apart over time. Occasionally, the phylactery of an atrophied lich remains even after its master is destroyed. Such phylacteries become artifacts, powered by the renewed tenacity of their masters to cling to existence, and grant some aspects of a lich's power to a new master.

While attuned to the phylactery, you react to healing energy as if you were undead. Additionally, you gain resistance to cold, lightning, and necrotic damage, as well as immunity to poison damage. If you are undead, you gain Turn Resistance. Additionally, the DC to resist your necromancy spells is 1 higher than normal.

Your touch slows the movements of your enemies. If you succeed at an unarmed melee attack with a free hand, you can affect a target as per the slow spell (DC 14) instead of dealing damage. You can use this ability

A masterpiece for puzzle lovers all around. I would not recommend buying this final entry as your first DROD game due to this game building up on the series in terms of difficulty and mechanics. As always make sure to utilize the Caravel Games forums to seek help (you will need it).. Now don't get me wrong - I don't mind supporting these developers - but I'm not usually the type to spend more than \$10 on games at any one time. I am the epitome of a bargain hunter. So while I enjoyed Enter the Gungeon and was genuinely surprised by the unassuming epicacy and lore within, I kind of wish they had sold the comic seperate of the rest of the bundle.

I was interested to see what other story I may have missed out on, but it's a bit of a shame that I have to pay 8 dollars to purchase the inconsequential Microtransaction Gun and the \*okay-but-not-something-I'd-put-in-my-playlist\* soundtrack, just to get to the 2-dollar digital comic. Of course, these are also the prices on sale.

I'm willing to pay it for the sake of the game and to give my support, but....ehhhhhhhh.... :V. The game is awesome but there's a few things that I can think of to make the game better:

- \* Implement a challenge mode
- \* The music is awesome include a few more tracks
- \* The shield is the worst powerup because it prevents you from increasing your combo since it knocks cars away from you, it should increase your combo everytime you hit a car
- \* More powerups\malus in general
- \* More cars and more colors
- \* I could not see what power up I had when I was in first person view

I love the game though its fun to play when you just wanna chill out y'know.. Sometimes the Puzzles are hard because the puzzle is large and you can't see the pieces. Other times it's hard because Security Drones are chasing you all over the small little map. For a little Virus, Tom offers a whole lot of Challenge. Glad I purchased it on Day one.. I got it for a really low price. Definitely worth it.

Unfortunately i don't have a 3D printer.. \*I didn't play enough Wakfu\Dofus to know Ocrest before this movie, so I bought and watched it clueless about its implications on those games\*

I bought this movie because I would love to see more music\films on Steam, not only games. As a way to support this idea, I added Ocrest to my library.

I didn't have many expectations while watching the trailer and screenshots to be honest, but it turned into a beautiful short movie that almost made me cry at times. Ocrest is an emotional adventure about love, and the effort and risks you take to protect the ones you love.

It worths the price and maybe it's another step in order to expand the kind of products Steam can offer.

P.S.: I guess this is a **MUST BUY for any Wakfu\Dofus fan!. + Fantastic writing**

- + Atmospheric**
- + Philosophical without taking itself too seriously**
- + Learn lots of weird, morbid trivia!**

**- None of the endings are all that satisfying**

- \* No music, just ambient noises**
- \* Due to stylistic preference or limited resources, character avatars repeat**

Have you ever wanted to discuss mellification with a soldier? Walk into a furnace and absorb the power of the heretical books that were burned there? Trick cabbages into revealing they aren't people, and give them a good kick for pretending?

If your answer is "No, but now I'm intrigued," then Ossuary might be the game for you.

Ossuary is mostly about talking to people, which is good, because the things they say are actually interesting for once. You'll spend most of your time collecting sins that you can then use on NPCs to change their mood. Many of the puzzles involve figuring out which sin you need to use where, such as applying "sloth" to a sleepy guard so you can sneak by them, or "lust" to a grad student who needs to renew their passion for aquarium algae so they can finish their thesis. The puzzles are fairly straightforward, and given that every single character has a unique bit of dialogue in response to every single sin, you won't go through any of the usual boredom when using trial-and-error to figure out what to do next. Another nice quality of life feature is that characters you need to speak to in order to progress glow gold, but half the fun is going through every possible dialogue option before you move on.

The writing itself is beautiful and odd, if occasionally on the nose. Sometimes the people you speak to will talk about themselves, sometimes they'll share philosophical musings, sometimes they'll tell you stories. Speak to a random guard who in any other game would just say "This area is off limits!", and instead he'll tell you that they used to dispose of old razor blades by pushing them through a slot in bathroom walls. "A million knives lie in wait in the walls of a thousand homes," he muses. One soldier from a lineup of 15 other completely identical soldiers will share the stories of various famous last words, while another will dwell on Fermat's Last Theorem. Despite their visual similarities, every NPC is wonderfully distinct.

My only real complaint is that the endings don't give much in the way of emotional closure. They're all nearly identical, with the screen fading out and a single quote shown to you before you're returned to the main menu. The true ending, or what feels like the true ending, is the best of them, so I'd recommend putting in the effort to reach it. In any case, this game is more about the journey than the destination, so it's not that big of a detriment to the overall experience.

**TL;DR:** If you're the kind of person who'll happily sink time into exploring weird game settings and don't mind reading a lot, Ossuary's macabre underworld is well worth a visit.. An interesting plot based on H.P. Lovecraft overcome the fact that is quite short and easier than expected. Not as good overall as Shadow of the Comet but at least there are some technical improvements.

it is fun at first then it just gets really boring. \u041e\u0424\u0418\u0413\u0415\u041d\u0421\u041a\u0418\u0419

I've tried multiple shortcuts (CTRL+SHIFT+T, SHIFT+CTRL+T), the program doesn't work after you select the video or service you want to stream.

There's no manual, only an useless webpage with a single (and wrong) shortcut.

Even giving admin privileges to the application doesn't work.

A good idea, but badly executed.. I remember Bush when I was growing up in the 90's and this song pack did bring back some nice memories but on to the song pack itself....

This is only for the rhythm parts as I don't tend to play the lead...

The songs are pretty basic when it comes to playing, not really much jumping around and throwing your tv out of your top floor window which was a bit of a let down but that's not to say it's not any good.

If you are struggling with bar chords though then you should definitely get this pack as I found it has improved my skill using them, they have always been a weak spot of mine and this song pack makes you use them alot and in a flowing movement up and down the fret board.

So in conclusion the song pack isn't the most exciting pack you can play on Rocksmith but it will get you better at bar chords.

7V10. You can Marry Nep!. No multiplayer online -> uninstall  
(can't even use mouse in menu)
